PAPERASSERIE

The paper concept that allows for wet area applications as well as for flooring, yes floors!! Totally can be produced with your designs and colors, we need a high resolution rendering to enable a faithful end result. The floor and wet area version is extremely durable as a result of an applied resin top coat and is also perfect for applications where overall floor height is a consideration. The graphics are dimensionally expandable to fit the overall area and scaled renderings can be furnished on request.

Also available as a class A vinyl wallpaper.

All Bespoke designs can be produced in paperasserie version.

ZOOMED TEXTURE
