We started with a blank porcelain panel and then developed a selection of artistic renderings that comprise the Bespoke collection. These are all produced on 5mm porcelain ceramic panels @ 39" wide x 118" long. This is a hand drawn image in black on a white ceramic porcelain panel evoking a mercurial rural setting where the sprawling vineyard leads you to a community with the church spire and cross dominating the landscape as is typically the case in many Southern European rural areas.
